Practical List

1. Contruct a table Department with Dept Id as primary key , Dept name and Location name. Create a table Employee with Employee Id as primary key , Employee Name, Designation, Gender, Age, Date of Joining, Dept Id as foreign key and Salary and insert data in both the tables.

2. Extract queries using Comparison, Logical, Set, Sorting and Grouping operators to retrieve required data from the Employee table created in Question1.

3. Write queries using aggregate functions to summarize the data from the Employee table created in Question1 .

4. Extract Query to

A. Display the Employee id, employee name for all employees who earn more than the average salary.

B. Display the employees who have the highest salary

C. Display all employees who belong to a particular location

5. Construct tables for the library management system which demonstrate the use of primary key and foreign key. Master table should have the following fields: Accno, Title, Author and Rate. Transaction table should have the following fields: User id, Accno, Date of Issue and Date of Return. Create a Report(Select verb) with fields Accno, Title, Date of Issue for the given Date of Return with column formats

6. Create a Student table with following fields and Constraints.

5.2. ARTICLESHIP TRAINING:

Articleship Training reports are evaluated based on the following rules:

Each student should undergo 100 hours of Apprenticeship Training during IV and V Semester course of study.

1. The training report is not less than 30 type written pages should be submitted within one month after the completion of the apprenticeship period.
2. If a student fails to undergo the apprenticeship programme on medical grounds/due to lack of attendance either in the IV semester or in the V semester (or) in both semesters, she should undergo the same after completion of 6^{th} semester. For this prior permission should be obtained from the Principal with the recommendation of the Head of the Department and Controller of Examinations. In such a case training report should be submitted within one month after the completion of the apprenticeship period.
3. In case of failure to submit the report within the above stipulated period, the date of submission may be extended to 15 working days with a late fee as prescribed by the Principal. Further extension, if necessary, may be granted by the College Council on special request.
4. The Apprenticeship report shall be evaluated for a total of 100 marks, out of which 50 marks shall be allotted to the apprenticeship programme to be evaluated by auditor and 50 marks to the apprenticeship report to be evaluated by the Department.
5. A student should secure a minimum of 20 marks each (Auditor & Department) in the apprenticeship programme and 40 marks in the training report to qualify for a pass in the 'Apprenticeship Report'.
6. If any candidate indulges in malpractice while attending the apprenticeship programme or fails to secure a minimum pass mark in the apprenticeship programme as evaluated by the auditor, the report will not be considered for the evaluation by the Department. In that case, student has to undergo Apprenticeship Programme once again and resubmit the report within one month after completion of Apprenticeship Programme.
